## **PROJECT NARRATIVE**

Please attach material, which responds to the follow five items in the order that they are presented.

1. In a brief paragraph, describe the project and its purpose, how and when it will be accomplished, and why it is important.

The purpose of the Sanborn Park Playground Replacement Project is to replace vital equipment in a public park in the Town of Lewiston. In its current condition, Sanborn Park fails to serve the surrounding population or the Town of Lewiston at large with quality recreational opportunities and creates a dangerous environment for residents to enjoy the Park's facilities and surrounding green space and open air activities.

Sanborn Park is located less than six miles from the New York State Power Authority Water Reservoir on Saunders Settlement Road (Route 31). Also, as is the tradition in many communities, Sanborn Park is adjacent to Sanborn Fire Company, where it is an important facility for both Fire Company functions as well as for public and community use. It is one of the few parks on the South- East side of the Town of Lewiston, and neighbors the Town of Niagara, Town of Wheatfield, and the Town of Cambria. It is also about 5.5 miles from New York State Reservoir Park.

The Sanborn Park Restoration Project seeks to completely remove and rebuild an playground structure due to its unsafe and antiquated condition. Upon the removal of the existing playground, this project will install a new playground unit with modern functionality that will benefit a wider range of population.

These upgrades will enhance the attractiveness and functionality of the rest of the Park as a whole by providing more space that can be used for recreational activities. This project will also enhance the ability of this Park to serve the recreational needs of the Sanborn community and the Town of Lewiston as a whole when integrated with our other Parks.

The Town of Lewiston declares that it is their opinion, shared by the Town of Lewiston Parks and Recreation Advisory Committee, that the completion of the Sanborn Park Greenway Project will have a positive effect on the use and usefulness of parks connected by the Niagara Greenway.

2. Referring to the Niagara River Greenway Plan, clearly document and describe how the proposed project will advance the Niagara River Greenway vision including the goals,

principles, and criteria that define that vision.

**Niagara Greenway Vision Statement:**

*The Niagara River Greenway is a world-class corridor of places, parks and landscapes that celebrates and interprets our unique natural, cultural, recreational, scenic, and heritage resources and provides access to and connections between these important resources while giving rise to economic opportunities for the region.*

The Lewiston Sanborn Park Playground Replacement Project will promote and further the vision of the Niagara River Greenway by supporting public parkland along the Niagara River to serve as a recreational, educational, and scenic gateway for visitors to the Greenway Corridor.

The Sanborn Park property, located adjacent to Lewiston Fire Company #2, is within close proximity to drive, bike, hike, and/or jog Lewiston's other parks as well as to the Niagara River, Devil's Hole State Park, and the NYS Reservoir Park. Sanborn Park is one several Town-owned parks that the Town of Lewiston maintains. The pride of the Town's parks system is supported by Kiwanis Park, Lewiston Town Park, Sanborn Park, Upper Mountain Park, and Colonial Village Park. Sanborn Park also supports Lewiston's other parks by providing new playground equipment for visitors and the community's youths. Between these parks, the Town maintains eleven baseball fields, one of which is located at Colonial Village Park. During the spring and summer the Town sponsors Youth Baseball, outdoor lacrosse, and supervised playground activities every weekday from the end of June to mid-August in its five parks. Fall baseball programs also begin at the end of August. Members of Lewiston's Fire Company #2 also make frequent use of this Sanborn Park for recreational and leisure activities including fundraising programs.

Town playground activities that can be supported by Sanborn Park include instructional tennis, basketball, and other athletic activities, arts and crafts, pre-schooler sessions, field trips, instructional chess and other games and classes in specific arts or crafts.

The Town's 2008 recreational survey and park inventory clearly indicated a critical need for parkland and open space. The limited municipal parks in Lewiston are currently overcrowded and force residents (mainly children) to be driven to other parks for recreation including educational recreation programs such as scouting, nature walks, orienteering, passive usage, etc.

This project incorporates six goals of the Greenway Commission, and the project will support an accessible, unified, environmentally friendly, and revitalized corridor that highlights the natural beauty, cultural diversity, and historic significance of the Niagara River. These goals are as follows:

## **GOALS**

### **Improve Access**

The Lewiston Sanborn Park Playground Replacement Project will serve as a recreational destination for members and visitors of the community and will further support recreational activities and programs for the Town's youth. During both leisure Park enjoyment and organized Park activities, including youth basketball games as well as Fire Company events, the current playground structure cannot be made use of due to its unsafe, deteriorating condition. This project will improve access to the currently unusable structure by replacing safety surfaces and replacing the rusted, unsafe metal and plastic structures. This project will also upgrade the attractiveness and functionality of the entire Park.

Implementation of this project will significantly contribute to the improvement of the Town's park that has experienced an increase in usage due to the increase in demand from the population within the Town and surrounding communities.

### **Make Connections**

This project will facilitate increased access for Park users to playground equipment and recreation areas in Sanborn Park, and will serve as a recreational destination for Town residents and the surrounding community. The Town maintains one of its community basketball courts within the Park for use by the community, its spring, summer and fall basketball programs, and its Fire Company members. This project will connect park users to additional equipment and recreational opportunities while at the Park by restoring its playground back to safe, usable condition.

### **Protect and Restore Environmental Systems**

This project will ensure that the Sanborn Park property remains open space and parkland and will preserve the surrounding environment from commercial and residential development. The project contributes to the environmental well-being of the region. As this property is located adjacent to Lewiston's Sanborn Fire Company, protecting and restoring the surrounding landscape remains a priority for maintaining the pride of Lewiston's parks system. The Niagara River Greenway will protect and restore the environmental resources of the region through habitat restoration, reclamation of damaged areas, and preservation of unique and threatened ecological resources.

### **Spark Revitalization and Renewal**

The Lewiston Sanborn Park Playground Replacement Project addresses the heart of the Greenway's goal for revitalization and renewal of green spaces and public recreational opportunities. Sanborn Park serves as a recreational destination for visitors and several of the community's youths through its spring, summer and fall programs, as well as the Town's Sanborn Fire Company members. The current playground is restricted from use due to the

deteriorating, unsafe conditions, which prevents a great deal of recreational activities for a wide range of users. This project will completely restore the playground to a safe, new condition complete with safe surfaces and modern amenities.

### **Celebrate History and Heritage**

The installation of additional bench seating for leisure recreation and improved, safer play areas will draw people from the Town as well as visitors to the area, thus providing additional recreational amenities to serve the existing population. Throughout its history the Town of Lewiston has been a close-knit community within itself as well as with surrounding municipalities. Its heritage and pride of its park system is supported by all five of Lewiston's parks, which includes Sanborn Park. It is an important, longstanding tradition for fire companies to have park space adjacent to their facilities for both company functions as well as for community, public access. This project will allow the community to uphold those traditions and to preserve the programs available for toddlers and their parents.

### **Promote Long Term Sustainability**

As the Town of Lewiston currently has a long term lease on the property, the Town will continue to ensure that the Sanborn Park playground and recreational structures are maintained and updated to remain an attractive destination along the Niagara River Greenway. Due to the current deteriorating playground and unsafe conditions, the project will ensure that Park is sustained for years to come. Revitalization of the Parks currently deteriorating recreational amenities will ensure that this property, as it is located adjacent to the Town's Sanborn Fire Company, will be conscientiously maintained will into the future. Through its recreational events and programs the connection between Sanborn Park and Lewiston's other Town parks will contribute to vitality of the area as it continues to serve as an attractive and essential gateway and stopover along the Niagara River Greenway and trail systems. The Town is committed to the yearly funding and manpower that are necessary to keep the Park and its amenities in top condition.

### **Extend Olmstead's Legacy**

Currently, the Town of Lewiston has limited public recreational property available for the enjoyment of residents and visitors. Due to the recent increase in population and the projected continuance of that trend, The Sanborn Park Playground Replacement Project will provide local residents and visitors to the area with improved access to the Park's playground equipment, recreation areas, and basketball courts for a steadily growing population (mainly the community's youths). The new equipment will facilitate safer conditions for its users, particularly toddlers and youths between the ages of 7-12, and will make equipment available for each of the Park's target segments so users of all ages can make use of the equipment and recreational areas.

## **GUIDING PRINCIPALS**

The implementation of the **Sanborn Park Playground Replacement Project** will meet the guiding principles of the Niagara Greenway Commission as follows:

### **Excellence**

The Town of Lewiston is committed to maintaining excellence at its recreational facilities as well as for its Fire Companies. The Sanborn Park Playground Replacement Project, with its close proximity to other Town and State parks, bike trails and pedestrian, and access to the Niagara River, will capitalize on the Park's surrounding area's recreation amenities (playground equipment, recreation programs for youths, courts and fields), pristine natural beauty, and scenic vistas, thus contributing to the Greenway Commission's first-class standards.

### **Sustainability**

The Town of Lewiston's Sanborn Park Playground Replacement Project will promote the *ecological, economic* and *physical* sustainability for long-term viability and effectiveness. The project will be conscientiously maintained by the Town's Parks and Recreation Department.

### **Accessibility**

The Sanborn Park Playground Replacement Project will be situated along the Niagara Corridor in the Town's of Lewiston and Niagara, thus facilitating improved public access to the Town's additional parks as well as the Niagara River Vistas. The project will be designed to provide and increase physical accessibility to its currently unsafe, deteriorating playgrounds and related resources for a full range of users (youth, seniors, and persons with special needs).

### **Ecological Integrity**

The Sanborn Park Playground Replacement Project will support parkland that is used, and will improve the health, vitality, and integrity of natural resources and wildlife habitats with an emphasis placed on restoring and retaining ecologically significant areas and natural landscapes both in and over the water and inland.

### **Public Well-Being**

With a proposed project area of the Niagara River and Greenway Corridor, the Sanborn Park Playground Replacement Project will provide much-needed recreational opportunity to a wide range of users, including the community's youth and their parents who utilize the park for recreation, after-school programs, and sports, as well as the members of Lewiston's Sanborn Fire Company. The Park's project will advance public well-being and promote physical and emotional wellness through the experience that it offers to the public by providing access to both

active and passive recreational opportunities, and amenities for those with special needs. The project will provide improved access for various recreational activities and will support a relaxing atmosphere for all visitors.

### **Connectivity**

The Sanborn Park Playground Replacement Project will facilitate increased access to playground equipment and both passive and active recreation areas in Sanborn Park, and will serve as a recreational destination for Town residents and the surrounding community. This project will connect park users to additional equipment and recreational opportunities while at the Park by restoring its playground back to safe, usable conditions. Sanborn Park is located just west of Niagara County Community College, just east of Niagara Wheatfield schools, and is adjacent to both the Niagara County Wine Trail and the Saint Lawrence Seaway Trail, which runs from Lake Erie, the Niagara River, Lake Ontario, and through New York State.

### **Restoration**

The location of the proposed Park improvements features the playground, which are currently not compliant with safety standards and are rusted, deteriorating, no longer meets the needs of the increasing population, and presents hazardous, unsafe conditions for its users. The project is designed to encourage the restoration of recreational resources and equipment, the safety of the surrounding landscape, as well as the protection of the environment.

### **Community Based**

The Town of Lewiston's Sanborn Park Playground Replacement Project has been in the planning stage for several months, with support provided by the Town's Recreation Director Mike Dashineau, Town Supervisor Mr. Steve Broderick, the Town of Lewiston's Town Board, the members of the Sanborn Fire Company, and members of the Town of Lewiston Parks and recreation Advisory Committee. The project reflects the preferences and plans of the local community, as reflected in the 2008 survey, while respecting other stated goals and the communal vision of the Niagara River Greenway. The project is vital in restoring the Park to meet the needs of the Town and the surrounding population and has the full support of the local community.

## **CRITERIA**

Through the **Town of Lewiston Sanborn Park Playground Replacement Project**, the Town of Lewiston meets criteria of the Niagara River Greenway Plan:

### **Priority Status**

The Lewiston Sanborn Park Playground Replacement Project has been in the planning phase for several months to restore and enhance the several recreation opportunities for users of all ages, including the community's abundant, increasing youth population, and will provide additional amenities for those utilizing the Parks trails and recreation space. Sanborn Park supports the pride of Lewiston's parks system and will enhance the overall attractiveness and usability of the park for the community and Sanborn Fire Company.

### **Focus Area**

The implementation of the proposed project will visually improve the aesthetics of the Town's Sanborn Park property and, as it is within close driving proximity to other Town and State parks and attractions along the Niagara Corridor, the improvements to the Park will have a local and regional impact at the heart of the Greenway. Sanborn serves as a gateway to access of the Niagara County Wine Trail and the Seaway Trail.

### **Environmental Soundness**

The conceptual plan has addressed the need to provide proper maintenance of landscaping and plant life, as well as return any disturbed ground to its original condition. The improvements will make the Park's maintenance more efficient and easier, as the new safety surfaces will allow for easier brush pick up and less ground disturbance from raking and the sorting of "good" from "bad" material.

### **Implementable**

The Town has requested proposals for the engineering and construction costs. The Town of Lewiston will be awarding this project during the summer of 2021 under all Federal and State guidelines.

### **Economic Viability and Local Sponsor**

All maintenance and upkeep of the Park will be provided through a line item in the Town of Lewiston Parks and Recreation Department Budget. The Town of Lewiston will continue to provide stewardship for this project, and provide the necessary money, equipment, and manpower to further this project along from the design phase to its completion and beyond.

### **Matching Funding/Leveraging**

The Town of Lewiston is committed to developing and maintaining the Park as part of its yearly

budget.

### Consideration of Other Planning Efforts

This project is consistent with the Town of Lewiston's Comprehensive Master Plan.

### Clear Benefits

The Town of Lewiston's Sanborn Park Playground Replacement Project will serve as both an active and passive recreation destination, linking surrounding communities for recreational activities, programs, and sporting events, will improve the quality of life in our growing community, and enhance tourism and the visitor experience for those visiting the Greenway.

3. Define the budget for the proposed project and include costs for the following:

Remove and Replace Playground Structure - \$85,000  
Benches - \$2,500  
Contingency - \$12,500

Planning \$   N/A    
Construction \$   \$100,000    
Acquisition \$   n/a    
Administration \$   n/a    
Operation and Maintenance / Year \$   n/a    
TOTAL PROJECT COST is BUDGETED \$   **\$100,000**  

4. Describe the measures taken at the local level to gain community and government support for this project (hearings, petitions, public surveys, resolutions of support or other methods). If this project has been cited or described in a local planning document or some equivalent thereof, attach copies of that documentation highlighting the sections that are relevant to the proposed project. Describe the role of municipal agencies, stakeholder groups, consultants, volunteers or others who will be involved in the proposed project.

This project was planned withing the Office of Parks and Recreation with the assistance of the Lewiston Town Board, Supervisor Steve Broderick, and members of the community based Parks and Recreation Advisory Committee. The Sanborn Park Playground was identified in 2019 as equipment that was substandard and marked for replacement. Its replacement will better reflect the goals and standards of the Town of Lewiston when providing recreational opportunities to its residents and visitors to the Niagara Greenway area.

5. Describe and document the environmental setting and existing conditions at the proposed project site. If you are not the owner of the property include a letter(s) or resolution(s) evidencing support for the project by the owner. Provide photographs, conceptual plans and drawings that show the site as it presently exists and the how the site will change with the addition of the proposed project. Describe how your project will comply with the State Environmental Quality Review Act (SEQRA). The existence of wetlands, significant upland and aquatic habitats, and plant or animals species that are classified as rare, threatened, or endangered should be noted. Explain how such natural resources will be protected and / or enhanced. Cite any relevant project related studies.

The Town of Lewiston's Sanborn Park Playground Replacement Project will provide improved and restored access to Park passive and active recreational opportunities for *all* Park users, including the members of the Town's Sanborn Fire Company and the full range of community users (youths to their parents and seniors). This project entails the replacement of deteriorating, insufficient and unsafe recreation structures with equipment to meet the needs of the Town's several target segments of the population. The project will improve upon the safety and function, replace the existing structures, as well as provide adequate opportunities for recreation. As Sanborn Park is a vital part of the Town's recreational parks system, it is a destination stop along the Niagara River Corridor, Niagara Wine Trail and the Saint Lawrence River Seaway Trail. It is within close proximity to additional Town, County and State parks to encourage more participation in recreation and provide a stop for trail users along the way.

The proposed project's improvements will allow the Town to continue its tradition of providing its residents and the surrounding community with open space for recreation and environmental conservation. There were no relevant studies necessary for this project, and all SEQRA documentation will be obtained once before the project commences.

Town of Lewiston  
**AUTHORIZING RESOLUTION**  
March 6, 2021

**For the Niagara River Greenway for Sanborn Park Playground Project**

I, Donna Garfinkel, Town Clerk of the Town of Lewiston located at 1375 Ridge Road Lewiston, NY 14092, do hereby certify that the following resolution was adopted at a special Town Board meeting of the Town of Lewiston held on March 6, 2021 and is incorporated in the original minutes of the said meeting and that the said resolution has not been altered, amended or revoked and is in full force and effect.

WHEREAS, the Town Board desires to acquiring the funds to complete Town of Lewiston 2021 Sanborn Park Playground Project in the amount of \$100,000.00

WHEREAS, the Town Board desires to provide this type of amenity to residents at the lowest possible cost to the Town and Town taxpayers, and

WHEREAS, the Town Board desires to apply for financial assistance from the Niagara River Greenway, and

WHEREAS, the Town Board commits to providing the required local matching funds to insure the timely implementation of the proposed project.

THEREFORE BE IT RESOLVED, that the Town Board authorizes and submits an application for the Niagara River Greenway funds for the Sanborn Park Playground Project in the amount of \$110,000 and

BE IT FURTHER RESOLVED, that the Town Board authorizes the Supervisor to sign all documents and agreements related to the Niagara River Greenway Program application

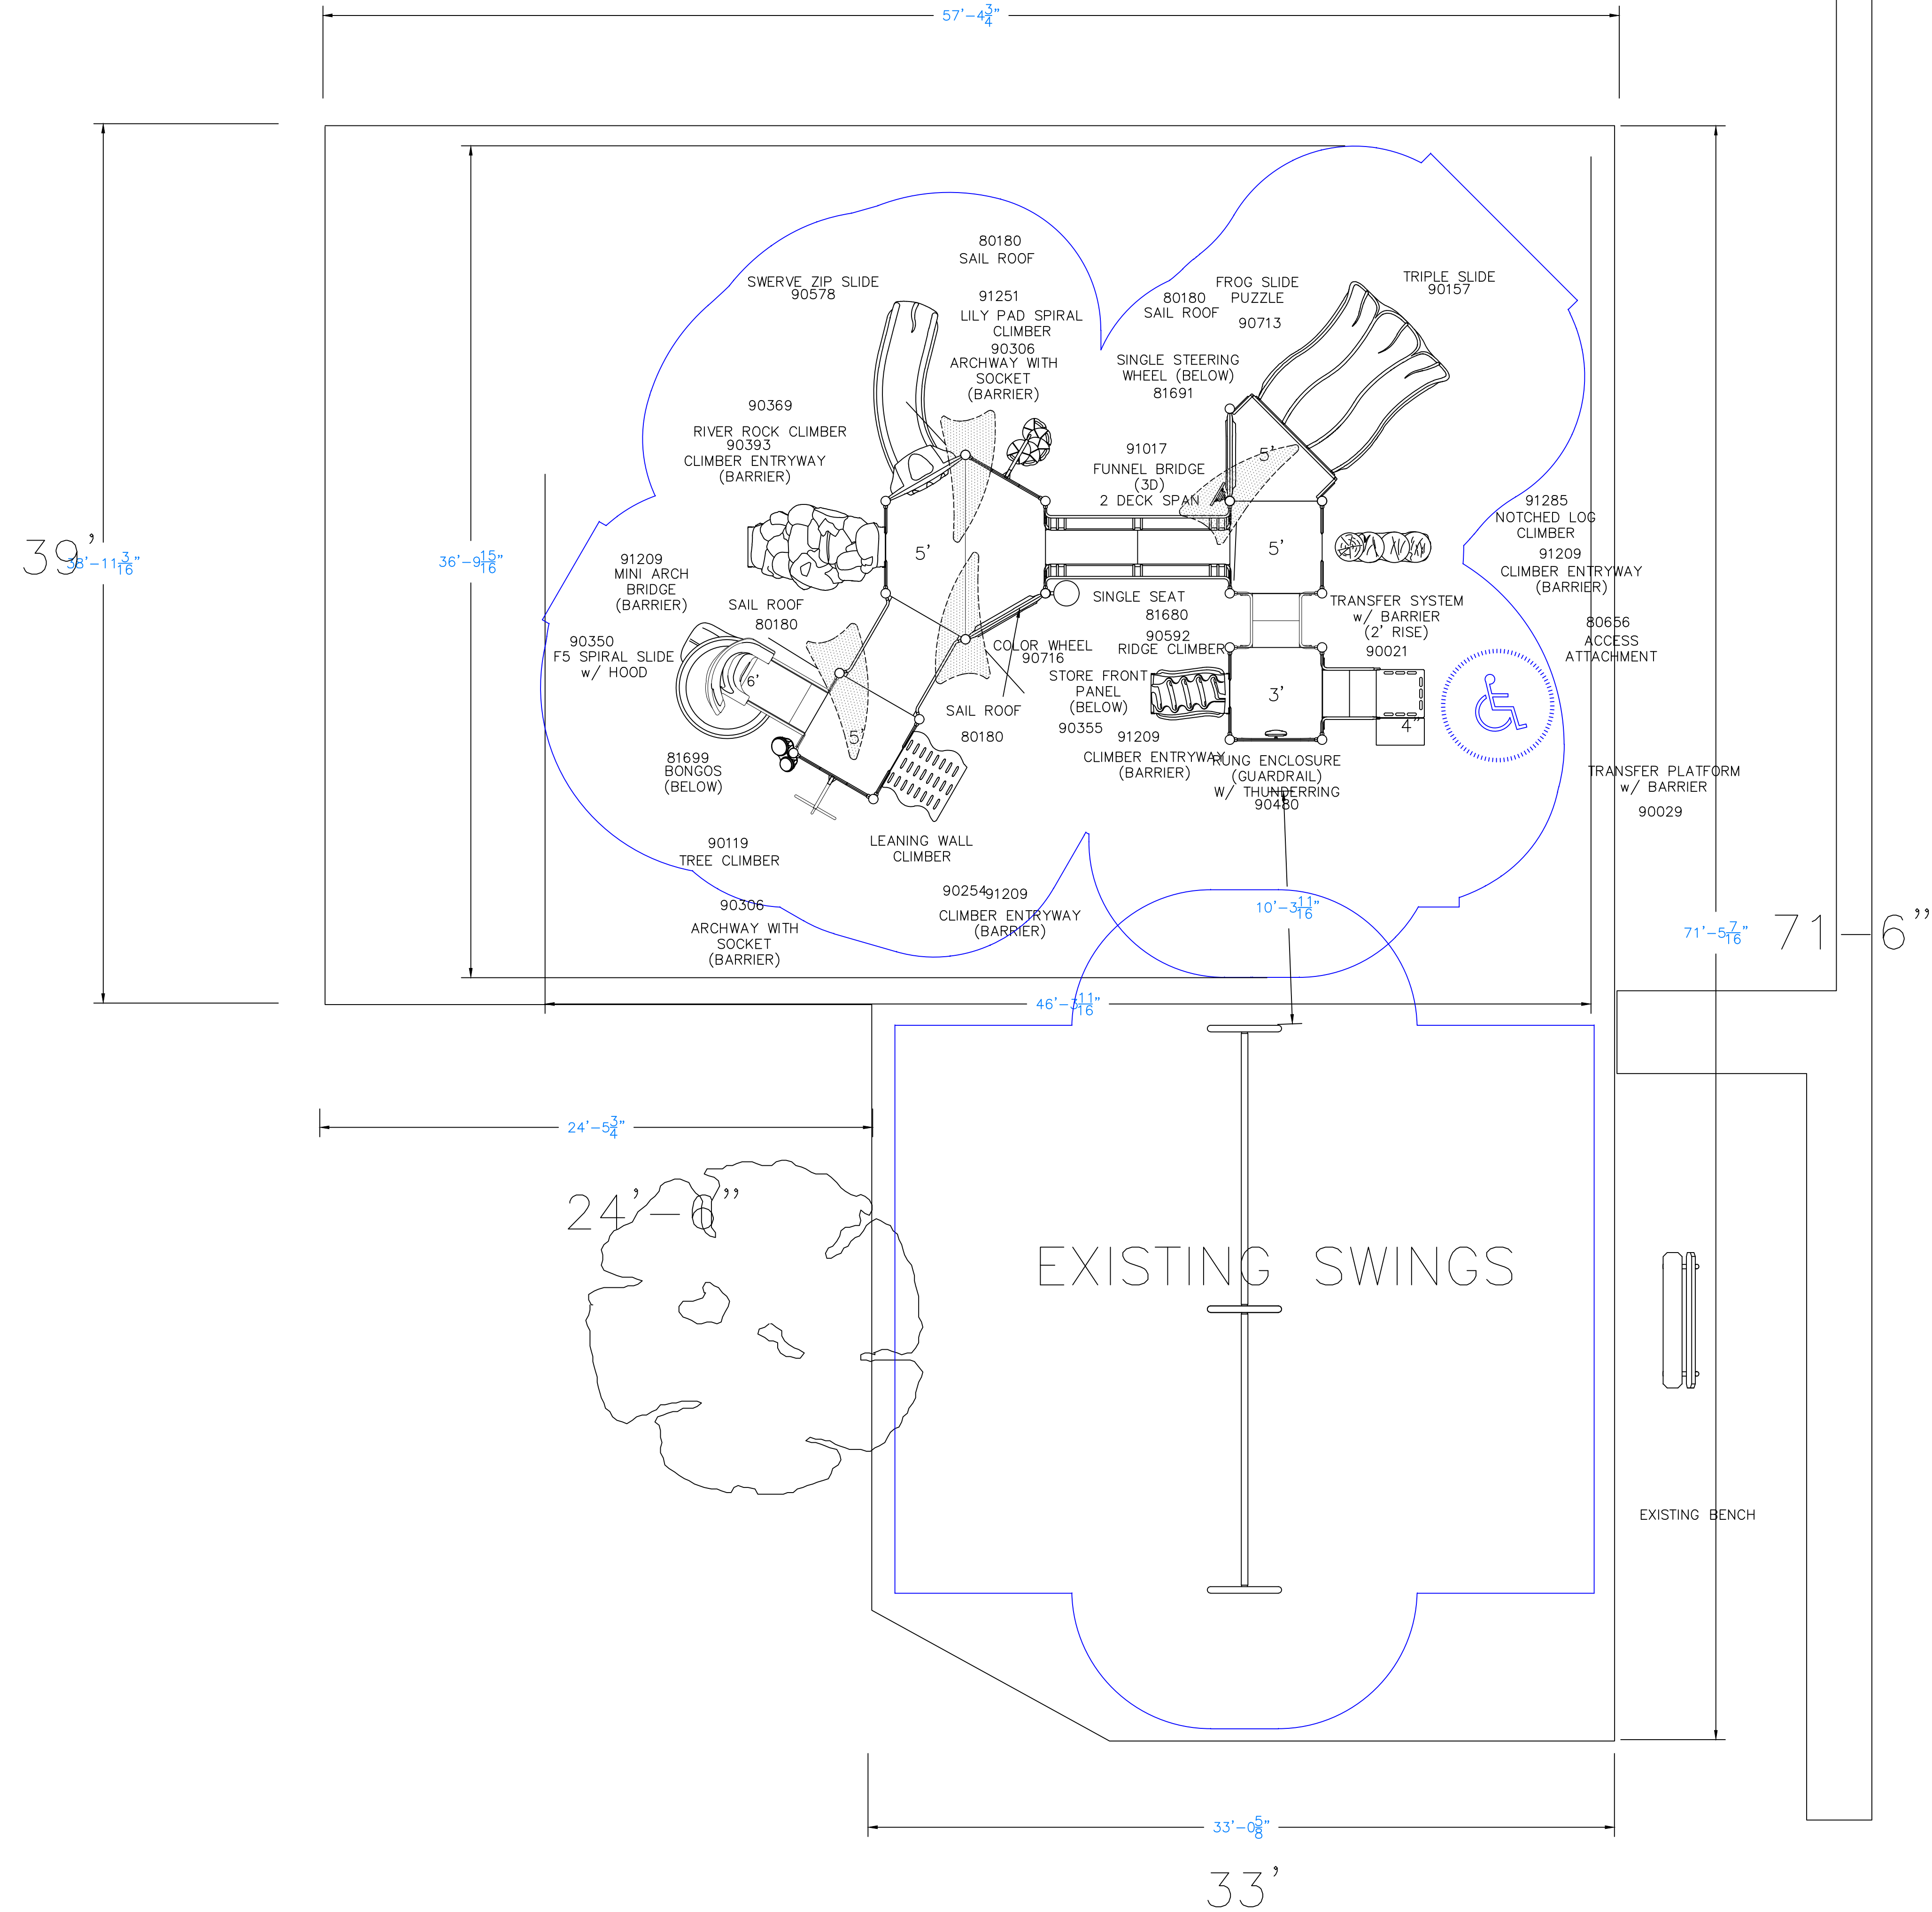

RESOLVED, that I, Steve Broderick, as Supervisor of the Town of Lewiston, is hereby authorized and directed to file an application for funds from the Niagara River Greenway, and execute a project agreement for such financial assistance to the Town of Lewiston for the proposed 2021 Sanborn Park Playground Project.

01/11/2021  
 Quote #100675-01-02

## NY Lewiston Town of Sanborn Park

This quotation is subject to policies in the current GameTime Park and Playground Catalog and the following terms and conditions. Our quotation is based on shipment of all items at one time to a single destination, unless otherwise noted, and changes are subject to price adjustment. Purchases in excess of \$1,000.00 to be supported by your written purchase order made out to **GAMETIME, c/o Marturano Recreation**. Kindly issue one order for the equipment and a separate order for surfacing and/or equipment installation services. Customer is responsible for any required permits and fees pertaining to such permits.

**PRICING / PAYMENT:** Pricing f.o.b. factory, firm for 30 days from date of quotation. Payment terms: Purchase order made payable to GameTime. 75% due Net 30 days after ship date and 25% balance due upon completion of project for tax supported governmental agencies. A 1.5% per month finance charge will be imposed on all past due accounts. Equipment shall be invoiced separately from other services and shall be payable in advance of those services and project completion. Retainage not accepted.

**TAXES:** State and local taxes, if applicable, will be added at time of invoicing unless a tax exempt certificate is provided at the time of order entry.

**FREIGHT/SHIPMENT:** Freight charges: Prepaid and added at time of invoicing. Shipment: order will ship within 30-45 days after GameTime's receipt and acceptance of your PURCHASE ORDER, signed quotation and color selections.

**RECEIPT OF GOODS:** Customer is responsible for unloading and uncrating equipment from truck. Customer shall receive, unload and inspect goods upon arrival, noting any discrepancies on the Delivery Receipt prior to written acceptance of the shipment.

**INSTALLATION:** *Installation by a Gametime Certified Installer.* The attached certified installer form must be completed to assure the customer understands the terms of installation listed briefly below:

- Customer is responsible for calling **888-DIG-SAFE** a minimum of 72 hours before installation is to begin.
- Direct access is required for large construction vehicles.
- All work is to be done in one move.
- All excavated material is to remain on site.
- The installation of border timbers is not included in the above price.
- Unforeseen subsurface obstructions may incur additional charges.

**EXCLUSIONS:** unless specifically included, this quotation excludes all site work and landscaping; removal of existing equipment; acceptance of equipment and off-loading; storage of goods prior to installation; safety surfacing; borders and drainage provisions.

**TO ORDER:** Please complete the acceptance portion of this quotation and provide color selections, PURCHASE ORDER and other key information requested. Acceptance of this proposal indicates your agreement to the terms and conditions stated herein.
